ELUCIDATION OF
BANJARNEGARA REGENCY REGIONAL REGULATION
NUMBER 1 OF 2022
ON
THE REGIONAL EMBLEM

I. GENERAL

In administering regional autonomy, the regional government has obligations, including protecting the community, maintaining unity and national harmony, and preserving the nation's social values within the Unitary State of the Republic of Indonesia. The preservation of the social and cultural values of the regional community is reflected, among other things, in the Regional Emblem as a regional identity. As a regional identity, the regional emblem depicts the region's potential, the hopes of the regional community, and the motto that illustrates the spirit to realize those hopes.

The cultural values embedded in the Banjarnegara community are an extraordinary strength and need to be utilized properly. The nation's cultural assets, which are of immeasurable value, must be preserved and developed. This is crucial not only for maintaining cultural diversity but also for ensuring the continued existence and development of traditional values.

The hopes of the Banjarnegara community, which are realized through various regional government policies, essentially represent the crystallization of the community's aspirations. The existence of an emblem is a unifying identity as well as a shared hope. Thus, the regional emblem holds a very significant position in regional governance, and therefore, the regulation of the regional emblem by the regional government is outlined in a regional regulation.

The legal basis underpinning the regional emblem policy has been established, both in the 1945 Constitution and Government Regulation Number 77 of 2007 concerning Regional Emblems. However, along with developments regarding the change of the Anniversary Day of Banjarnegara Regency, adjustments to the regional emblem need to be regulated in a regional regulation.
